Index to Volume 6

Authors and Titles

Aitken, Yvonne. *See* Berry, G. J.

Allan, P. *See* Menary, R. C.

Asher, C. J., and Reay, P. F.
Arsenic uptake by barley seedlings 459

Bagga, A. K. *See* Rawson, H. M.

Barlow, E. W. R. *See* Munns, Rana

Beilby, Mary J., and Coster, H. G. L.
The action potential in *Chara corallina*
II. Two activation–inactivation transients in voltage clamps of the plasmalemma 323
III. The Hodgkin–Huxley parameters for the plasmalemma 337
IV. Activation enthalpies of the Hodgkin–Huxley gates 355

Berry, G. J., and Aitken, Yvonne
Effect of photoperiod and temperature on flowering in pea (*Pisum sativum* L.) 573

Bisson, Mary A., and Kirst, Gunter O.
Osmotic adaptation in the marine alga *Griffithsia monilis* (Rhodophyceae): the role of ions and organic compounds 523

Bisson, Mary A. *See also* Kirst, Gunter O.

Boag, T. S., and Brownell, P. F.
C_4 photosynthesis in sodium-deficient plants 431

Brady, C. J. *See* Munns, Rana

Brooking, Ian R.
Male sterility in *Sorghum bicolor* (L.) Moench induced by low night temperature. II. Genotypic differences in sensitivity 143

Brown, J. M. A. *See* Browse, J. A.

Brownell, P. F. *See* Boag, T. S.

Browse, J. A.
An open-circuit infrared gas analysis system for measuring aquatic plant photosynthesis at physiological pH 493

Browse, J. A., Brown, J. M. A., and Dromgoole, F. I.
Photosynthesis in the aquatic macrophyte *Egeria densa*. II. Effects of inorganic carbon conditions on ^{14}C fixation 1

Browse, J. A., Dromgoole, F. I., and Brown, J. M. A.
Photosynthesis in the aquatic macrophyte *Egeria densa*. III. Gas exchange studies 499

Burke, M. J. *See* Marcellos, H.

Burris, R. H. *See* Spalding, Martin H.

Chu, A. C. P., McPherson, H. G., and Halligan, G.
Recovery growth following water deficits of different duration in prairie grass 255

Coster, H. G. L. *See* Beilby, Mary J.

Craig, S., Goodchild, D. J., and Hardham, A. R.
Structural aspects of protein accumulation in developing pea cotyledons. I. Qualitative and quantitative changes in parenchyma cell vacuoles 81

Crump, Janet A., and Murray, David R.
Proteolysis in cotyledon cells of *Phaseolus vulgaris* L.: changes in multiple hydrolase activities following germination 467

Dalling, Michael J. *See* Waters, Stephen P.

Davey, R. A., and Dudman, W. F.
The carbohydrate of storage glycoproteins from seeds of *Pisum sativum*: characterization and distribution on component polypeptides 435

Davidson, J. L. *See* English, S. D.

Donovan, G. R.
Relationship between grain nitrogen, non-protein nitrogen and nucleic acids during wheat grain development 449

Dromgoole, F. I. *See* Browse, J. A.

Dudman, W. F. *See* Davey, R. A.

Edwards, Gerald E. *See* Spalding, Martin H.

English, S. D., McWilliam, J. R., Smith, R. C. G., and Davidson, J. L.
Photosynthesis and partitioning of dry matter in sunflower 149

Esashi, Yohji, Sakai, Yuuko, Ushizawa, Ryohku, and Tazaki, Seiryoh
Catalase is not involved in control of germination of cocklebur seeds 425

Gifford, Roger M.
Growth and yield of CO_2-enriched wheat under water-limited conditions 367

Gleeson, P. A., and Jermyn, M. A.
Alteration in the composition of β-lectins caused by chemical and enzymic attack 25

Goodchild, D. J. *See* Craig, S.

Goodwin, P. B., and Morris, S. C.
Application of phytohormones to pea roots after removal of the apex: effect on lateral root production 195

Graham, D. *See* Paull, R. E.

Greenway, H., and Setter, T. L.
Na^+, Cl^- and K^+ concentrations in *Chlorella emersonii* exposed to 100 and 335 mM NaCl 61
Corrigenda 423, 571
Accumulation of proline and sucrose during the first hours after transfer of *Chlorella emersonii* to high NaCl 69
Corrigenda 423, 572

Greenway, H. *See also* Setter, T. L.

Gresshoff, Peter M.
Growth inhibition by glyphosate and reversal of its action by phenylalanine and tyrosine 177

Hall, Anthony E. *See* Shackel, Kenneth A.

Halligan, G. *See* Chu, A. C. P.

Hardham, A. R. *See* Craig, S.

Hatch, M. D.
Regulation of C_4 photosynthesis: factors affecting cold-mediated inactivation and reactivation of pyruvate,P_i dikinase 607

Hope, A. B., and Morland, A.
Proton translocations in isolated spinach chloroplasts after single-turnover actinic flashes 289

Huett, D. O., and Menary, R. C.
Aluminium uptake by excised roots of cabbage, lettuce and kikuyu grass 643

Jenner, C. F.
Grain filling in wheat plants shaded for brief periods after anthesis 629

Jermyn, M. A. *See* Gleeson, P. A.

King, R. W.
Abscisic acid synthesis and metabolism in wheat ears 99
Photoperiodic time measurement and effects of temperature on flowering in *Chenopodium rubrum* L. 417

Kirst, Gunter O., and Bisson, Mary A.
Regulation of turgor pressure in marine algae: ions and low-molecular-weight organic compounds 539

Kirst, Gunter O. *See also* Bisson, Mary A.

Ku, Maurice S. B. *See* Spalding, Martin H.

Marcellos, H., and Burke, M. J.
Frost injury in wheat: ice formation and injury in leaves 513

Martin, P. G.
Amino acid sequence of the small subunit of ribulose-1,5-bisphosphate carboxylase from spinach 401

McPherson, H. G. *See* Chu, A. C. P.

McWilliam, J. R. *See* English, S. D.

Menary, R. C., and Allan, P.
Effect of chloride on nitrate accumulation in papaw (*Carica papaya* L.) 241

Menary, R. C. *See also* Huett, D. O.

Milborrow, B. V.
Antitranspirants and the regulation of abscisic acid content 249

Milthorpe, F. L. *See* Thorpe, Nicolette

Moore, G. M.
Electrical assessment of injury and mortality of *Eucalyptus obliqua* L'Hérit. seedlings after heat stress and decapitation 317

Morland, A. *See* Hope, A. B.

Morris, S. C. *See* Goodwin, P. B.

Munns, Rana, Brady, C. J., and Barlow, E. W. R.
Solute accumulation in the apex and leaves of wheat during water stress 379

Murray, David R. *See* Crump, Janet A.

Nicholas, D. J. D. *See* Smith, S. E.

Nicholls, P. B.
Induction of sensitivity to gibberellic acid in developing wheat caryopses: effect of rate of desiccation 229

Nott, Robyn. *See* Smillie, Robert M.

O'Brien, T. P. *See* Smart, M. G.; Smith, M. M.

Patterson, B. D. *See* Paull, R. E.

Paull, R. E., Patterson, B. D., and Graham, D.
Amino acid uptake by tomato leaf tissue under chilling stress: uptake conditions and a comparison of *Lycopersicon* species of different chilling resistance 475

Randall, P. J., Thomson, J. A., and Schroeder, H. E.
Cotyledonary storage proteins in *Pisum sativum*. IV. Effects of sulfur, phosphorus and magnesium deficiencies 11

Rawson, H. M.
Vertical wilting and photosynthesis, transpiration and water use efficiency of sunflower leaves 109

Rawson, H. M., and Bagga, A. K.
Influence of temperature between floral initiation and flag leaf emergence on grain number in wheat 391

Reay, P. F. *See* Asher, C. J.

Rijven, A. H. G. C.
Cytokinin ribosides as inhibitors of ribonuclease activity on ribosomes of fenugreek (*Trigonella foenum-graecum* L.) cotyledons 621

Robinson, G. R., Rust, T. S. O., and Scott, B. I. H.
Analytical approach to the study of circadian leaf oscillations in clover. I. Recording and spectral analyses of leaf oscillations 655

Robinson, G. R., and Scott, B. I. H.
Analytical approach to the study of circadian leaf oscillations in clover. II. Responses to continuous light and to sinusoidal light oscillations 673

Rowan, Kingsley S. *See* Woodrow, Ian E.

Rust, T. S. O. *See* Robinson, G. R.

Sakai, Yuuko. *See* Esashi, Yohji

Schroeder, H. E. *See* Randall, P. J.

Scott, B. I. H. *See* Robinson, G. R.

Setter, T. L., and Greenway, H.
Growth and osmoregulation of *Chlorella emersonii* in NaCl and neutral osmotica 47
Corrigenda 423, 569

Setter, T. L. *See also* Greenway, H.

Shackel, Kenneth A., and Hall, Anthony E.
Reversible leaflet movements in relation to drought adaptation of cowpeas, *Vigna unguiculata* (L.) Walp. 265

Silsbury, J. H.
Growth, maintenance and nitrogen fixation of nodulated plants of subterranean clover (*Trifolium subterraneum* L.) 165

Smart, M. G., and O'Brien, T. P.
Observations on the scutellum. III. Ferulic acid as a component of the cell wall in wheat and barley 485

Smillie, Robert M.
Coloured components of chloroplast membranes as intrinsic membrane probes for monitoring the development of heat injury in intact tiusses 121

Smillie, Robert M., and Nott, Robyn
Heat injury in leaves of alpine, temperate and tropical plants 135

Smith, F. A. *See* Smith, S. E.

Smith, M. M., and O'Brien, T. P.
Distribution of autofluorescence and esterase and peroxidase activities in the epidermis of wheat roots 201

Smith, R. C. G. *See* English, S. D.

Smith, S. E., Nicholas, D. J. D., and Smith, F. A.
Effect of early mycorrhizal infection on nodulation and nitrogen fixation in *Trifolium subterraneum* L. 305

Spalding, Martin H., Stumpf, David K., Ku, Maurice S. B., Burris, R. H., and Edwards, Gerald E.
Crassulacean acid metabolism and diurnal variations of internal CO_2 and O_2 concentrations in *Sedum praealtum* DC. 557

Stumpf, David K. *See* Spalding, Martin H.

Tazaki, Seiryoh. *See* Esashi, Yohji

Thomson, J. A. *See* Randall, P. J.

Thornley, John H. M.
Wheat grain growth: anthesis to maturity 187

Thorpe, Nicolette, Willmer, C. M., and Milthorpe, F. L.
Stomatal metabolism: carbon dioxide fixation and labelling patterns during stomatal movement in *Commelina cyanea* 409

Tirmazi, S. I. H. *See* Wills, R. B. H.

Tran, V. Nguyen
Effects of microwave energy on the strophiole, seed coat and germination of *Acacia* seeds 277

Ushizawa, Ryohku. *See* Esashi, Yohji

Waters, Stephen P., and Dalling, Michael J.
Distribution and characteristics of aminoacyl β-naphthylamidase activites in wheat seedlings 595

Willmer, C. M. *See* Thorpe, Nicolette

Wills, R. B. H., and Tirmazi, S. I. H.
Effect of calcium and other minerals on ripening of tomatoes 221

Winter, Klaus
Effect of different CO_2 regimes on induction of crassulacean acid metabolism in *Mesembryanthemum crystallinum* L. 589

Woodrow, Ian E., and Rowan, Kingsley S.
Change of flux of orthophosphate between cellular compartments in ripening tomato fruits in relation to the climacteric rise in respiration 39
